Early Childhood Intervention Program

What is ECIP?

The Early Childhood Intervention Program offers 1:1 support to preschool children with disabilities and their families. Building on a child's strengths and Early Childhood Intervention Workers assist children developing skills in areas of focus, as identified by the integration team.

All partners work collectively to provide optimum support for the child. An individualized child centered program, with adapted activities, is utilized to meet the

Delivery

Where is the Program Held?

The Early Childhood Intervention Program can take place in the community early childhood program, day care, or in the child's home. It is the parents choice and the staff can assist parents with this decision.

The program is free to parents, however it is the responsibility of the parents to pay for the childcare setting if required.

The Early Childhood Intervention Program is funded by the GNWT Healthy Children Initiative, NTHSSA Yellowknife Region, Jordan's Principal and the generous donations from organizations, agencies and individuals.

Expectations

What can families expect from the program?

The Early Childhood Intervention Program offers children the opportunity to develop:

- Communication skills;
- Gross and fine motor skills;
- Social and play skills;
- Positive self-esteem;
- Strength-based and child centered learning
